Two factor authentication (2FA)

Keeping your data safe is top priority so we have provided the ability to turn on two factor authentication for extra protection. Simply click on “My Profile” and then “Enable Two Factor Authentication”

Then scan the provided QR code with your favourite 2FA management app (e.g. authy or google authentication), confirm the code and you're all set up. Next time you log in you will be prompted for a 2FA code.

New Navigation Position

You will notice that your navigation menu is now located on the left side of the page rather than at the top so that we can make better use of the screen real estate.

Invite and collaborate with multiple people

You are now able to invite additional people into your organisation to collaborate with them when applying for funding. Simply click on the Invite Users button at the bottom of the registration form to invite as many people as you wish.

Same address as above?
 Yes
 No

Want to work with other users?
Invite users into your Company

Invite users

Or if you have an existing account with us and you want to invite additional people into your organisation, click on the manage organisation button in the left-hand navigation

And choose invite applicant from the drop-down menu

Name	Type	Applicants	Date Created	
Test Business 1	Company	2	16/11/2022	View

Manage multiple organisations from your one login

We understand that sometimes you might want to apply for funding under different organisations but don't want to sign in with different credentials to switch between them.

You can now add an additional Organisation to your login by clicking on the Create Organisation button in your left-hand navigation and follow the registration process

You can then switch between these Organisations within your left-hand navigation by clicking on the Organisation you want to apply as or manage.
